Subject Index

A
Acanthamoeba 104
Acetylcholinesterase
  and insecticide resistance 57
Adjuvants
  BCG 41, 188
  Freund's complete 42
  liposomes 44
African trypanosomiasis, see *Trypanosoma brucei*
AIDS
  and insect transmission of HIV 91
  and malaria surveillance 395
  and parasitic infections 134 (BR), 309, 310
  and *Pneumocystis carinii* 222
Albendazole
  in treatment for neurocysticercosis 66
  in treatment for *Trichinella* 67
Allergens
  and nematode infections 322, 346
Amblyomma spp
  A. americanum 54, 152
  A. haebreum 152
  and ivermectin 152
  and remote sensing of habitat 248
γ-Amino butyric acid, see GABA
Amodiaquine
  detection in plasma 123
  toxicity 198 (BR)
Amylopectin 207
Anaemia
  and equine infectious anaemia virus 89
  in hookworm disease 1
  in malaria 77
  and ticks 48
Anaplasma marginale 91, 93
Ancylostoma duodenale 1, 381
Angiostrongylus cantonensis 81
Anisakis spp 32
Anopheles spp
  A. albimanus and insecticide resistance 57
  A. pseudopunctipennis 31
  A. stephensi and insecticide resistance 59
  and rice cultivation 163
Anthelmintics, see albendazole, cyclosporin A, fenbendazole, hycanthone, luxabendazole, mebendazole, praziquantel
Antibiotics 120, 146
Antigenic mimicry 114, 196, 347
Antiprotozoal drug development 117, 239, 252, 257, 299, 330
Apicomplexa
  phylogeny 104
Arboviruses
  bovine leukaemia virus 90
  dengue haemorrhagic fever 273
  equine infectious anaemia virus 89, 91
  hog cholera virus 92
  Japanese encephalitis 162, 343
  and rice cultivation 162, 343
  and tabanid transmission 88
  and tick transmission 54
Armillifer armillatus 128
Arsenical drugs 215, 270
Artemisinin 233
Ascaris spp
  egg hatching of 377
  and gut immunophysiology 11
  and the MHC 316
  prevention and control 337 (BR), 359
  xenobiotic metabolism 157
Astrocytes 215
Atlas of Parasitology 338 (BR)
Autoimmunity
  and murine schistosomiasis 36
  and mycobacteria 115
  and *Plasmodium falciparum* 141
  and *Trypanosoma brucei* 217
  and *Trypanosoma cruzi* 111
Avermectins 146
  see ivermectin

B
Babesia spp
  and vaccines 45
Bacille Calmette Guérin (BCG)
  and vaccines 41, 139, 188
B-cells
  epitopes 397
  and malaria vaccine 138
  and *Trypanosoma brucei* 215
  and *Trypanosoma cruzi* 111
BCG, see Bacille Calmette Guérin
Bed bugs 100
Bednets 9, 214
Besnoitia besnoiti 93
Biological control
  of mosquitoes 31, 163
  of nematodes 28
Blastocystis spp 104
Blood–brain barrier
  and ivermectin 147
  and *Trypanosoma brucei* 215
Boophilus spp
  B. microplus 48, 152
  and ivermectin 152
Borrelia burgdorferi 54, 93
Bruce-Chwatt, L.J. 307

C
Calcium
  and anti-malarial drugs 198, 234
  and hatching of nematode eggs 378
  and tick feeding 50
Caligus spp 292
Cell-mediated immunity (CMI)
  and BCG 188
  of crustaceans 171
  and enteric parasites 11
  to nematodes 316
  and *Plasmodium chabaudi* 362
  and *Plasmodium falciparum* 42, 138, 143
  and *Plasmodium yoelli* 42
  and *Schistosoma mansoni* 38, 275, 350
  and *Taenia solium* 66
  and *Trichinella* spp 347
  and *Tritrichomonas foetus* 375
  and *Trypanosoma brucei* 215
  and *Trypanosoma cruzi* 111
Cephalobaenida 126
Cercariae
  and complement 20
  and vaccination 38, 274
Chagas disease, see *Trypanosoma cruzi*
Chemoprophylaxis 116
Chemotherapy
  for bovine trichomoniasis 375
  for ectoparasites 146, 294
  for helminths 309, 360
  for leishmaniases 228, 256, 299
  for malaria 197 (BR), 233, 252, 267 (BR)
  for schistosomiasis 83, 214, 333, 388
  for sea lice 294
  and slow-release formulations 149
  for *Taenia solium* 65
  for *Trichostrongylus tenuis* 289
  for trypanosomiasis 117, 270
Chile

malaria eradication in 31
Chloroquine
and field-adapted assays 116
resistance 197 (BR), 233, 326
Chrysomya bezziana
and ivermectin treatment 153
Chrysops spp
and *Borrelia burgdorferi* 93
and *Loa loa* 367
Cimex lectularius 100
Circumsporozoite protein (CS)
peptide vaccine 139, 202
CMI, see cell-mediated immunity
Coccidia
metabolism 205
Co-evolution
of hosts and parasites 385
of humans and malaria 140, 145
Complement
and adjuvants 43
and *Entamoeba histolytica* 308
and trematode infections 19
and *Trichinella* 346
Computer-aided identification 301, 400 (BR)
Computerized tomography
and neurocysticercosis 65
Concomitant immunity 279, 350
Cost–benefit analysis
of insecticide resistance assays 59
of malaria control 392
Crithidia luciliae
metabolism 80, 258
Crithidia spp
lipid biosynthesis 243
phylogeny 104
Crustacea
cellular immunity in 171
and the Pentastomida 127
and sea lice 291
Cryptosporidium spp
and the compromised host 134 (BR)
metabolism 208
CS protein, see circumsporozoite protein
Culex spp
and insecticide resistance 57
and rice cultivation 163
Cuticle
of nematodes 73, 378
of pentastomids 127
and protection 378
Cyclosporin A 67
Cytoadherence
in *Plasmodium falciparum* 183, 221
Cytokines
and malaria 43, 185, 363
and malaria fever 266
and malaria vaccines 202
and parasitic infections 271, 308
and *Schistosoma mansoni* 277
and *Tritrichomonas foetus* 374
and *Trypanosoma brucei* 215
and *Trypanosoma cruzi* 112
Cytoskeleton
of erythrocytes 219

D

Dermacentor spp
D. andersoni feeding 47
D. variabilis as vector 355
Dermatobia hominis
host-seeking behaviour 110
and ivermectin 153
DFMO, see α-difluoromethylornithine
Diagnosis
of haematoparasites 132, 325
and PCR 9
of *Pneumocystis carinii* 222
using recombinant antigens 25, 65
of *Schistosoma haematobium* 333
using synthetic antigens 399
of *Taenia solium* 65
of *Trichinella* spp 66
of *Tritrichomonas foetus* 375
Dichlorvos (Nuvan-500) 269, 294
Diethylcarbamazine
for onchocerciasis 63
α-Difluoromethylornithine (DFMO) 203, 215
Dihydrofolate reductase
in *Leishmania* spp 119, 252, 273
in *Plasmodium falciparum* 252
Dirofilaria roemeri 95
DNA
extraction 73, 367
kinetoplast 119
DNA probes
for insecticide resistance 58
for *Plasmodium* spp 232
for *Pneumocystis* spp 223
for *Taenia* spp 65
for *Trichinella* spp 67
Dracunculus medinensis 33
Drug
design 117, 253, 299, 330
development 117, 271, 299, 330
metabolism in helminths 157
resistance in helminths 214, 290
resistance in protozoa 197(BR), 233, 252, 326, 375

E

Echinococcus granulosus 365
Echinostoma revolutum 3
Economics
of malaria control 392
and schistosome control 389
Editosome 7
